

## ZONE 3 – EAST END OF PROJECT AREA

*Planned Improvements – Refer to Zone 3 Map*

### **SUNNYSIDE ROAD: 93RD AVE TO STEVENS RD**

- › Widen I-205 bridge for 12-foot wide cycle track for pedestrians and cyclists on both sides of bridge
- › Modify I-205 bridge lane configuration to improve traffic flow
- › Install a pedestrian signal at the I-205 southbound off-ramp onto Sunnyside Rd
- › Paint bike lanes green in vehicle lane transition areas
- › Provide 12' cycle track for pedestrians and cyclists on north side of Sunnyside Rd between Stevens Rd and Sunnyside/I-205 northbound interchange and add pedestrian/bike signal
- › Add third lane at I-205 northbound onramp from Sunnyside Rd
- › Add double right turn lanes from I-205 northbound frontage road to eastbound Sunnyside Rd and realign pedestrian/bike crossing at the intersection for improved visibility

### **SUNNYSIDE RD AND STEVENS RD INTERSECTION**

- › Extend bike lanes on Stevens Rd to intersection of Sunnyside Rd
- › Restripe driveway of Kaiser Sunnyside Medical Center to provide 2 dedicated left turn lanes onto westbound Sunnyside Rd
- › Modify traffic signals

### **SUNNYBROOK BLVD: 93RD AVE TO 97TH AVE**

- › Modify striping and signal phasing at Sunnybrook Blvd./93rd Ave to improve traffic flow
- › Modify striping and signal phasing at I-205 northbound off-ramp and Sunnybrook Blvd to improve traffic flow
- › Restripe eastbound lanes on Sunnybrook Blvd between I-205 northbound off ramp and 97th Ave to improve traffic flow. Provide a dedicated right turn lane, bike lane, and two thru lanes onto Sunnybrook Blvd. Modify signal as necessary

\* Upgrade intersections in Zone 3 to meet ADA requirements
